Free: No charge – everyone is welcome

Stop procrastinating. Bring your computer and write that application!

Got a grant to write? Bring your computer and work on your grant along with other artists. You can ask for assistance from the on-site advisors. Come for the day, the afternoon, or just drop in for a couple of hours.

If you have a project you are trying to fund, we will talk it over with you and get you started. We might be able to help you find a suitable grant for your project. Or we can give you a hand getting an on-line profile with a granting body. If you need help drawing up a budget or a timeline, articulating your project, its viability or impact, we can give each other a hand.

“Writing a grant application makes you a better artist.”

Really. You have to articulate what you want to do; figure out who you are going to work with and where; make a timeline and a budget. And if you receive the grant you actually have to do the project - make art. The more art you make, the better you get as an artist – QED.
